

Your **Impact Donation** is making a difference

Thank you for choosing to make a positive impact with your donation!
At Elliott Insurance The Green Broker, we believe in the power of collective action. That's why we match every dollar raised through our Impact Donation, effectively doubling the impact of your contribution. Our team is also actively encouraged to volunteer their time, supporting our charity partners and extending the reach of our collective efforts. Together, we can create a lasting and meaningful change.

One Heart Foundation

**Supporting Education
in Kenya, Tanzania and
Uganda since 2016**

Since 2016, Elliott Insurance The Green Broker has proudly supported One Heart Foundation, contributing close to \$200,000. Our commitment goes beyond financial support – we've even purchased a piece of land in Soy, Kenya, to help expand the impact on children's lives in Regional Africa. Your donation directly contributes to this noble cause, fostering sustainable change in the lives of those who need it most.

Skin Check Champions

**Saving Lives,
One Check at a Time**

As a major partner of Skin Check Champions since 2018, Elliott Insurance The Green Broker is dedicated to the mission of providing free skin checks to Australians nationwide. To date, Skin Check Champions has saved thousands of Australian lives through early detection. Our CEO, John Elliott, further exemplifies our commitment, completing a remarkable 12,500km walk to raise funds and awareness about the importance of getting a skin check. Your contribution helps us continue this life-saving initiative.

Sustainability Initiatives

**A Shared Journey towards
a Sustainable Future**

Over the last eight years, Elliott Insurance has committed over 20% of shareholder profits to sustainability initiatives. We take pride in inviting our customers to join us on this journey. Your support not only enhances our business but also contributes to meaningful projects that align with our commitment to environmental responsibility and community well-being. Together, we can make a lasting impact for a better, more sustainable future.
